

# INTERNATIONAL NUTRITION SURVEY 2014

## Sites Registered for the INS 2014:

Sites are still able to register online [here!](#)

**Total:** **186**    **Burns Sites:** **24**    **PEP uP Collaborative Sites:** **13**

Begin entering data in REDCap as soon as possible to avoid missing the deadline (February 15<sup>th</sup> 2015 to receive a site report and be eligible for the Best of the Best award, June 1<sup>st</sup> 2015 to just receive a site report). Delays in the REDCap system are common as the deadline approaches and many users are accessing the system at once.

### Query System

The query system has not been activated in REDCap yet, therefore, patients cannot be finalized. We will inform all sites via email when the query system is activated. Details regarding queries can be found in the [REDCap Manual](#) and the [Query Module](#).

### Frequently Asked Questions (FAQs)

**Q: For the Supplemental Nutrients form, do we include it if it is in a multivitamin?**

A: No, only include supplements if prescribed on their own, not if in a general multivitamin.

**Q: On the Daily Nutrition Data form, are we only to indicate the location of the feeding tube each day for nasal or oral tubes? What if the patient has a jejunostomy tube?**

A: Indicate the location of the tube (gastric or small bowel) regardless of the type of feeding tube the patient has. There is a mistake in the instructions that states only oro/nasogastric tubes should be recorded.

Refer to the [INS FAQs](#) page on our website for more questions and answers.
