INTERNATIONAL NUTRITION SURVEY 2014

Sites Registered: Total **2 4 3** Burn Sites **3 2** PEP uP Collaborative **1 9**
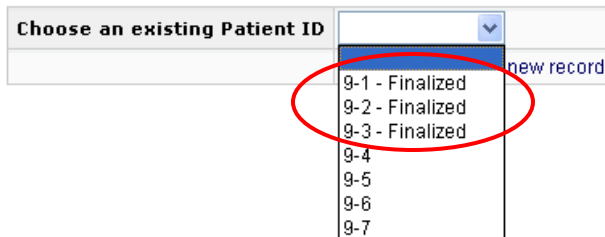

INS 2014

Revised Timelines

On February 9th 2015 we sent out an email communicating the new revised timelines for the INS 2014. We have extended the February 15th deadline to be eligible for the Best of the Best Award to June 1st 2015. No changes have been made to the June 1st deadline to receive a site report.

After reviewing the data in REDCap, very few sites had finalized sufficient data to be eligible for the Best of the Best Award or to receive a site report. The extension should provide enough time for sites to continue to enroll patients and finalize data.

A figure outlining the changes can be found on our website.

Help us meet our goal by finalizing data in REDCap! Follow these important steps:

• Once all of the data is entered for a patient, click 'Submit' on the Event Grid
• Complete the Outcomes Information Form
• Resolve any queries, including those requiring Data Management (see *Queries* below)
• The patient will automatically be finalized in REDCap once all queries are resolved and the Outcomes Information form is complete. The patient will be listed as 'finalized' in your patient list (see below).

Please note that once a patient is finalized, their data is locked and cannot be edited.

Queries

Please regularly check the Query Module in REDCap for messages from Data Management and any queries to resolve. You may access it by clicking 'Query Module' on the Data Entry page, as shown:

We recommend entering data and resolving queries in REDCap on an ongoing basis.
