

INTERNATIONAL NUTRITION SURVEY 2014

The International Nutrition Survey 2014 is 3 months away!

Registration will open online in August or September 2014

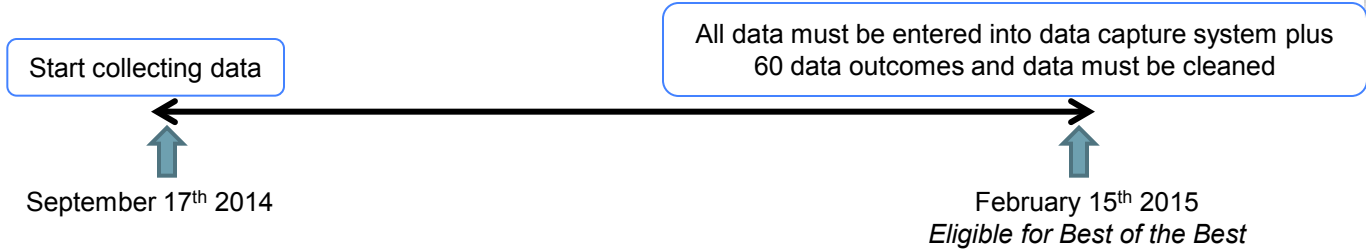

Survey Timelines

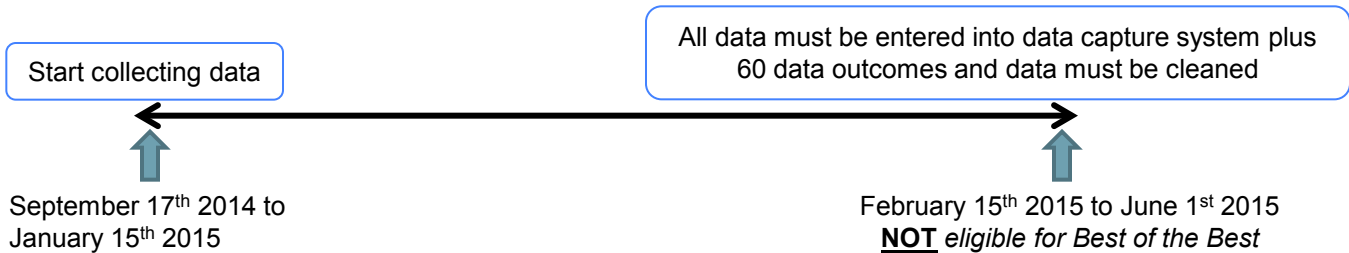

There are two timeline options for INS 2014 depending on a) if you are a burn unit and b) if your site would like to be eligible for the Best of the Best Award, as illustrated below. All sites must finalize a minimum of 15 patients to receive a site report.

Timelines for burn units as well as any site who would like to be eligible for the Best of the Best Award

To be eligible for the Best of the Best Award sites must finalize data on 20 patients.

Timelines for non-burn units

Sites may begin collecting data before September 17th as long as:

- patients are enrolled consecutively (record patients screened on the Screening Log Case Report Form).
- head of the bed elevation is recorded on the Screening Log when a patient is enrolled in the survey.
- data is collected on the paper Case Report Forms or you can wait until September to enter data electronically.
- data is entered in the electronic data capture system after September 17th 2014.

PEP uP Collaborative sites who have not implemented the protocol or are not ready to audit their site by September 17th, 2014 can follow the timelines for non burn-units (as illustrated above).

★ The final Instruction and Case Report Forms for burn units and non-burn units are available! ★

- Changes from the draft versions are minimal – revisions were made to the wording and formatting of the documents.
- No new questions were added nor were any questions omitted since the draft version.

All INS documents can be found on the [Study Tools](#) page of our website.

Critical Care Nutrition News

- We have a new and improved [website!](#) You can easily access the INS 2014 pages in the news slider or the INS 2014 button on the home page.
- Join our [Critical Care Nutrition Google Group](#) to post questions, provide feedback and connect with other INS sites.
- The [PEP uP Collaborative](#) PowerPoint presentations and audio from May 14th, 2014 are posted on our website.
